

Staff at Setanta recently completed a 30 day step challenge for Charity!

Recent months have been very difficult for the world as the battle continues with COVID-19. Charities in particular have been hit hard, so we set ourselves a challenge to walk 2,000,000 steps over 30 days while raising money for our charities.

At the end of the 30 days, we racked up over 2.5 million steps. **More importantly we raised €1,505** for our chosen charities LauraLynn and Barretstown.

The best part is every Euro raised is matched by our Group so an amazing €3,010 will be equally split between LauraLynn and Barretstown.

We hope this goes some way to supporting the great work both Charities do, every single day.
