

Setanta Asset Management Limited (Setanta)

Annual Best Execution Disclosure 2020

April 2021

Introduction

On an annual basis Setanta is obliged to provide disclosures on the execution venues utilised for each asset class, and information on execution quality, in accordance with Setanta's obligations under MiFID II. This report sets out the top 5 execution venues with whom Setanta traded during 2020.

Setanta's clients are classified as professional institutional clients. All sufficient steps are taken to obtain the best possible execution result on a consistent basis taking into account the execution factors of price, costs, speed, likelihood of execution and settlement, size and nature or any other consideration relevant to the execution of the client order. While the weighting and relevance of these factors may vary, price and cost of trading will ordinarily merit a high relative importance in obtaining the best possible result for a client. However, markets, instruments and transaction types vary greatly in terms of liquidity, depth, transparency, certainty, ease and speed of execution etc. Setanta may therefore take into consideration other execution criteria that alter the relative importance of execution elements. Such execution criteria may include, but are not limited to: prevailing market conditions; characteristics of the client and characteristics and size of the client order; characteristics of the financial instruments that are the subject of the order; characteristics of the execution venues to which that client order can be directed; and specific instructions received from the client.

Setanta takes a number of factors into account when selecting a broker to execute client orders, these may include but are not limited to: the competitiveness of commission rates and spreads, the speed of execution, the history of a broker in executing orders, the broker's clearance and settlement capabilities, the broker's financial stability, reputation and credit, the quality of service provided by that broker and the broker's access to markets. Brokers are selected in accordance with internal procedures and an approved broker list is maintained.

The Setanta Execution Committee oversees trade execution processes and outcomes in Setanta. The committee is comprised of: the Chief Investment Officer (CIO), The Head of Multi-Asset Funds, the Setanta Operations Managers and a representative from the Dealing and Compliance teams. The Execution Committee meets on a quarterly basis to review execution factors, market issues and regulatory updates. The Setanta Best Execution Policy is reviewed and updated by the committee annually or more frequently if required. Setanta maintains a list of approved brokers which is formally reviewed annually by the Execution Committee and is available to clients on request.
