Setanta Global Dividend Fund (CAD)

Q2 2026

Fund Description

The **Dividend Equity Fund** (‘the Fund’) is managed by Setanta Asset Management (“Setanta”) and is a representative account of the Dividend strategy.

The Fund is an actively managed equity portfolio, which holds 30-50 global high yield stocks. The portfolio is managed in accordance with the Setanta investment philosophy. That is, the managers seek to own good businesses for the long-term at prices below what they think they’re worth, carefully considering each investment’s risk profile. The Fund further distils this philosophy by targeting stocks where management have both the willingness and ability to distribute meaningful dividends to shareholders.

The Fund is managed by three portfolio managers, who also look to leverage off the experience and knowledge of their colleagues. The aim is to achieve a sensible level of diversification on a sector and geographic basis. Stocks are chosen through bottom-up analysis, based on investment merit. The fund can hold up to 10% cash where investments of sufficient quality cannot be found. Rather than focusing on the historic level of volatility of an asset, the portfolio managers regard the probability of permanent impairment of capital as the most relevant measure of risk. In doing so, they seek to maximise downside protection by understanding the risks posed by the valuation, financial, and operational characteristics of the asset.

The investment objective of the Fund is to outperform the MSCI High Dividend Yield index over the long term.
